Home is the Key

Habitat knows that safe, affordable homes **change lives and communities**, yet the U.S. housing crisis is increasing for communities in every region of the country. While the challenges are different, severity of the housing crisis is no less in rural areas and small towns than in urban and suburban areas. In 2024, home prices and interest rates raised the costs of homebuying to historic highs, **pricing out millions of potential first-time buyers**, slowing homeownership growth and exacerbating disparities in homeownership.

 **Habitat for Humanity®**
ReStore®

We must join forces with our neighbors to develop **more inclusive communities** and create areas of opportunity where families can thrive. This April, Home is the Key reminds us that **we all benefit when homeownership is accessible to everyone.**

ReStore Round Up Campaign!

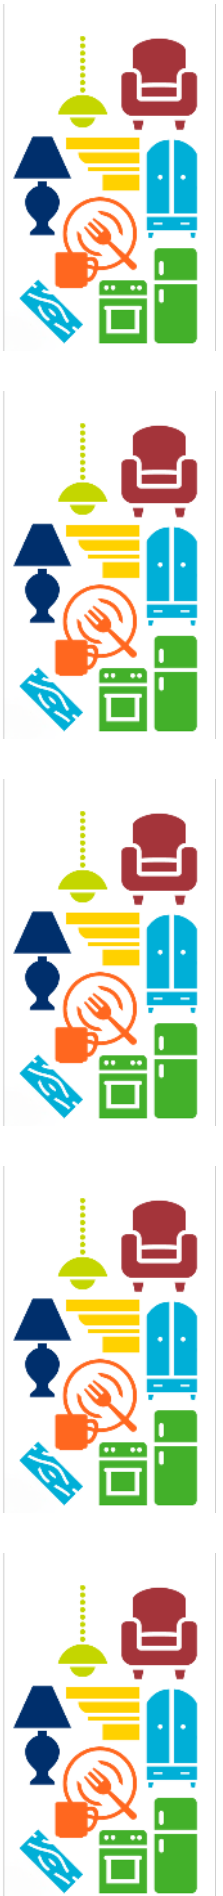

Home is the key to connection.

Affordable housing plays a key role in a family's education, health, wealth and well-being.

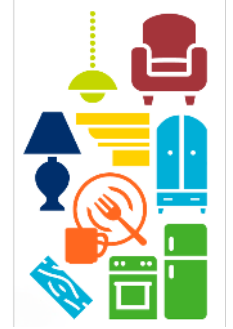

However, not every household has the same opportunities to succeed. Many families have been locked out for too long.

When you shop with the ReStore this month be sure to donate \$1, \$5 or \$20 to get your name on the wall of keys and show your support for our mission! Supporting the ReStore helps support our mission to build strength, stability and self-

reliance through shelter. We envision a world

Visit the ReStore Tuesday - Friday from 10am to 5:30pm or Saturday from 10am to 4pm.
